**PRESS RELEASE**

**SUB: Compucom Software inaugurates three Pre-Schools**

**Compucom Software Limited**, a BSE listed company(532339) and a leading IT Education provider, has inaugurated its first three Pre-Schools under **Compucom Pre-School** brand name.

Compucom got phenomenal response to its offering of Pre-Schools. Total **51** centres have been registered till date which will get commissioned in, not only **urban** but also in **rural and tribal** areas, during the running financial year. Company is hopeful that the number will increase more in coming months owing to very flexible and affordable model.

Compucom has ventured in Pre-School business seeing the huge market for such branded pre-schools in India. Some of the researches have estimated a market size of **Rs. 5000 Cr.** which is estimated to grow by **25%** annually.

Compucom has a vision that nurturing inherent characteristics of curiosity, creativity and exploration through pre-school education, helps in grooming the child for future.

Compucom has an aim which is to ensure best qualitative pre-school practices of global standards which should reach the child at an **affordable** cost.

Compucom Pre-Schools are equipped with excellent quality schools gears, state of art teaching and learning material catering urban and rural pre-schoolers at very affordable and acceptable cost. Company PreSchool uses LCD Projector, Computer, Health oriented equipments like Refrigerator, Microwave and Water Purifier apart from high end toys and interiors to attract its scholars.

Compucom Pre-Schools uses its innovative sourcing, deployment and management techniques to reduce the fees, cost of uniforms, books and stationery material. This fact has been appreciated by all parents and people present in the school inaugurations.

Compucom owing to its brand and affordable business model, is attracting lot of prospective business partners to open the franchises across North India.

Compucom is a leading educational and software services company which has 5346 Govt. schools under ICT implementation reaching **2 million** students across North India. Core Competency in education is helping company to evolve new business model in educational segment.

Compucom has its in-house Content development team for the Pre-School venture which is providing latest Pre-School content in easily acceptable video-audio and print form.

Compucom is also venturing to bring new dimensions in **online/offline tutorial** and **mentoring** of engineering students under **Compucom Gurukul** Brand.
